

# MPW Series

Stainless Steel Servo Motors

## IP69K/1200psi

The new MPW Series extends the MPP motor family to meet the needs of those applications exposed to high pressure, highly caustic, washdown environments. Specific applications can be found in such markets as Food and Beverage, Pharmaceutical, Packaging, and any other application that may be exposed to a harsh environment (salt, fog and humidity).

- 10 models covering three frame sizes
- Sealed to IP69K for 1200 psi washdown requirements
- Potted stator design for improved thermal efficiency
- 35 to 227 in-lbs continuous torque (230 and 460 VAC supply)
- Options include high resolution encoders, resolvers, and 24 V brake
- Cable options available to plug and play with a wide variety of drives

### Speed/Torque Range (Max)

### MPW Common Specifications

Ambient Temp at Rating	$T_{amb}$	°C	40
Max Winding Temp	$T_{max}$	°C	155
Number of Rotor Magnet Poles	$N_p$	# poles	8
Environmental Protection Rating <sup>2</sup>	IP		IP69K

## Model 92 Speed-Torque Performance

1 Assumes motor is mounted to an aluminum plate with dimensions of 12" x 12" x 1/2" for 92 mm motor frames.

2 Maximum winding temperature is 155°C. Thermal protection device threshold may be at a lower temperature.

3 These ratings are valid for Parker drives. Other drives may not achieve the same ratings.

MPW1426B		P-4B1-xx
MPW1426P		P-3B1-xx

<sup>1</sup> Motor sizes 92 – 142 use size 1.0 PS Connector

<sup>2</sup> -xx denotes cable length in feet. Motor power and feedback cables available in standard lengths of 10, 25, 50 feet. Other lengths are available. Drive current values are default values. When running Drive PWM frequency at values other than default, current output values will change. Please consult drive manual for current values, and select motor power cable accordingly.

\* Motor-to-drive feedback and power cables connect to the integral 10' (3.04 m) cables equipped on the motor.

# MPW Series Servo Motors

## “PS” Connectors (all motor sizes)

The PS connector option for MPP/MPJ motors feature high-quality Hypertac - Interconnectron circular connectors mounted to the motor body. These connectors are a right-angle mount and can be fully rotated. This allows for greater cable routing options. Mating cables are specified and ordered separately. The PS option joins the motor phase wires and brake leads into a one connector. The second connector has motor feedback signals, Hall effect signals, and thermistor signals.

Avg. Weight*	Kg (lb)	1 (2.2)	1.76 (3.89)	2.85 (6.27)

\* Consult factory for exact weights and inertia for specific motor.

\*\*Verify current capability of amplifier's brake circuitry.

## Proper MPW Venting Installation

### Vent

The vent on this motor requires tubing to be installed and routed to a dry air location to ensure IP69K sealing. Positive air pressure of 1.45psi can also be supplied through this same vent. FDA approved tube size should be 1/8 inch ID, 1/4 inch OD. If IP69K is not required replace the vent with a type 316 stainless steel pipe fitting, 1/8 inch pipe size, square head plug.

### EVA Tubing

Should be made from FDA compliant resins and USDA compliant for any food grade application.

**Dimensions:**  
**1/8" ID**  
**1/4" OD**  
**1/16" wall thickness**

Sources can be, but are not limited to, McMaster Carr and MSC.

### Pipe Fitting

Type 316 stainless steel, 1/8 pipe size, square head plug, Class 150 low-pressure, NPT connection.

Sources can be, but are not limited to, McMaster Carr and MSC.

# MPW Ordering Information

Fill in an order code from each of the numbered fields to create a complete model order code.

## Order Example:

①	②	③	④	⑤	⑥	⑦	⑧
MPW	92	3	D	1E	- K	PS	N

①	②	③	④ Winding (VAC)		⑤	⑥	⑦	⑧
Series	Model	Stack	230	460	Feedback Type	Shaft	Connectors	Options
